The opening date shall usually not be less than one (1) week after such notification.

The Client shall prepare minutes of the public opening and these shall be furnished, upon request, to Consultants who's Financial Proposals were opened.

(b) if there is an error in a total corresponding to the addition or subtraction of subtotals, the subtotals shall prevail and the total shall be corrected; and

38.7 The points for other Financial Proposals, as stated under ITC Sub Clause 38.7, shall be computed using the formulae: \[ F_p = \frac{100 \times F_m}{F} \] the Financial Point of the Proposal under evaluation, Fm being the lowest Financial Proposal Price and, F being the price of Proposal under computation during evaluation; in either case however, the Proposal Prices to be taken into consideration after adjustments made by the PEC in correcting omissions or inconsistencies detected during the evaluation of the Financial Proposal and applying the provisions as stated under ITC Sub Clause 38.3, 38.5 and 38.8.

38.8 In the case, an activity or line item is quantified in the Financial Proposal differently from that in the Technical Proposal, PEC shall correct the quantification indicated in the Financial Proposal so as to make it consistent with that indicated in the Technical Proposal, apply the relevant unit price included in the Financial Proposal to the corrected quantity and correct the Proposal Price in this respect.

[For the purpose of ITC Sub Clause 38.8, if a Technical Proposal indicates the presence of the Team Leader at the assignment site for twelve (12) months and the Financial Proposal indicates only eight (8) months, an adjustment should be calculated by adding the corresponding amount of staff remuneration to the proposed amount]

38.9 Pursuant to Rule 120(3) of the Public Procurement Rules, 2008, the Consultant shall be kept informed of such errors discovered during arithmetic corrections stated under ITC Sub Clause 38.3.

39.1 In QCBS the Proposals will be ranked according to their combined scores (Cs) using the weights \( T = \text{the weight given to the Technical Proposal; } F = \text{the weight given to the Financial Proposal; } T + F = 1 \) pursuant to Rule 117 (24) (b) and 121 of the Public Procurement Rules 2008 as indicated in the PDS:

\[ Cs = Ts \times T\% + Fs \times F\% \] The firm achieving the highest combined technical and financial score will be invited for negotiation under ITC Clauses 40 to 44.
39.2 In the case of Fixed-Budget Selection (FBS), the Client will select the firm that submitted the highest ranked Technical Proposal with an evaluated price that is within the budget. Proposals that exceed the indicated budget will be rejected. The selected firm will be invited for negotiations under ITC Clauses 37 to 41.

Form 5A4  Description of Approach, Methodology and Work Plan for Performing the Assignment

[Technical approach, methodology and work plan are key components of the technical proposal. It is suggested that you present your technical proposal (50 pages, inclusive of charts and diagrams) divided into the following three chapters:

1. Project Background

Bangladesh Government’s vision is to provide access to affordable and reliable electricity to all by the year 2021 and in line with this government’s mission is to ensure uninterrupted and quality power supply for all by 2021. The Power System Master Plan (PSMP 2016) recommends a diversification of fuel used in electricity generation as natural gas reserve is depleting fast and accordingly the Government of Bangladesh has a plan to reach a capacity of 40,000 MW of electricity by 2030 and half of which (20,000 MW) will be generated from coal to reduce the dependency on natural gas.

APSCL, a vital government owned and an enterprise of Bangladesh Power Development Board is a Power Generation Company located at Ashuganj, Brahmanbaria. Its total installed capacity is 1734 MW. APSCL is contributing low cost power to the grid. To cope up with the government vision of power generation it has set a target to increase generation to 3800 MW by 2021 and 6500 MW by 2030. APSCL intends to construct a 1320 MW coal fired plant which will be extended up to 4000 MW.

The proposed power plant project will be located at Debpur-Dhankhali-Panchjunia-Chalitabunia Mouza, Dhankhali-Champapur Union, Kalapara Upazila in Patuakhali District, Bangladesh. The site is located on the western bank of Rabnabad Channel. On its south, there are three more organizations namely Shena Kallayan Sangastha (SKS), Rural Power Company Limited (RPCL) & Northwest Power Generation Company Limited (NWPGCL). All the above mentioned organizations are progressing to construct the coal fired power plants of capacity 2x660 MW each.

In this regard, China Energy Engineering Construction Limited (Energy China) and APSCL has been signed a MOU (Memorandum of Understanding) on 13th July, 2017. As a consequence of MOU, both APSCL and Energy china is processing to form a joint venture company for running this project successfully. In connection of that project APSCL is implementing a project named “Land Acquisition, Land Development and Protection for Patuakhali 1320 MW Super Thermal Power Plant Project” financed by Government of Bangladesh (GoB).

The land acquisition process is going on. Among the 930.615 acres land 515.605 acres land has been approved by Govt. for acquisition.
