Memo No.: APSCCL/PD/Project-400MW (East)/GL-10/02018/202

Dated: 13.01.2018

Subject: Request for Application for Selection of Environmental Consultant

Under Tranche 3 of the Bangladesh Power System Expansion and Efficiency Improvement Investment Program, the Ashuganj Power Station Company Limited (APSCCL) will construct 400 MW combined cycle gas turbine (CCGT) base load power plant (Power Plant) within the APSCCL complex. The Power Plant will be constructed at the place of the existing 146MW Power Plant (56MW Gas Turbine (GT-1), 56MW Gas Turbine (GT-2) and 34MW Steam Turbine (ST)). In this regard, GT-1, GT-2 and ST unit will be decommissioned and demolished first. APSCCL intends to procure the Power Plant on a turnkey basis, with the contractor to be responsible for the demolition, disposal and site Preparation and design, supply, delivery, erection, testing, and commissioning of the plants.

An Environmental Consultant in this process will be hired as an independent monitor to verify information produced through the project monitoring and to facilitate the carrying out of any verification activities for assisting APSCCL in assuring that all project activities comply with the requirements of loan covenants, GoB environmental regulations, Environmental Management Plan (EMP, and Environmental Impact Assessment (EIA) available in APSCCL & ADB's website.

The Environmental Consultant will report to the Project Director, APSCCL on project compliance with environmental commitments in the EMP, loan covenants, EIA, and other applicable standards. He / She will also update the environmental management and monitoring plan (EMP) detailing environmental mitigation measures to address any unanticipated impacts and recommend appropriate environmental mitigation measures. The scope of this consultancy will cover both decommissioning of the existing plant and implementation of new plant.

2. Qualifications:

The Environmental Consultant should have a Bachelor and Master's degree in Environmental Science or Environmental Engineering or Bachelor in Civil Engineering and Masters in Environmental Science.

3. Requirements:

1. The applicant must have at least 7 (seven) years' experience in environmental safeguards and management, with GoB /ADB /WB or other donor funded projects, particularly in preparing EIA, including EMP for "Red" category (category "A") projects.
2. Strong Technical background in construction related environmental management.
3. Experience in multi-disciplinary areas such as environmental, social and resettlement aspects.
4. Sufficient knowledge in development partners assisted projects, especially experience on preparation of environmental screening and assessments reports of the ADB/WB funded project. However, experience in the energy and power sector for environmental safeguards and management will be given preference.
5. Besides this, the consultant should have experience in environmental monitoring, data collection and analysis, environmental analysis or relevant field.
6. Strong organizational and planning skills with the ability to work independently under pressure.
7. Strong interpersonal communicative skills, experience in team leadership and participatory management.
